Features

Desktop Computer Power Cord Connects PCs, Printers, Monitors and Other Equipment

This desktop computer power cord is designed for computers, monitors, scanners, printers and other compatible peripherals. It features a right-angled C13 end for connecting to a device and a 5-15P plug for connecting to an AC power source. The 14-foot length allows you great flexibility in placing equipment with respect to the power outlet.

Right-Angle PC Power Cable Is Easier to Connect in Tight Spaces

The angled C13 connector makes installations easier in confined spaces, such as the back of a rack enclosure cabinet. When plugged in, the right-angled plug guides the computer power supply cable parallel to your peripheral, allowing you to push the device up against a wall or hide it behind a desk to maximize space.
